

MS Access Lab 2

Quiz 2: Open the Northwind.mdb database and answer the following questions:

1. In the 'Categories' table, what is the datatype for the field Photo? Using MS help, list concise steps to insert photographs into your database.
2. In some of the tables, the 1st column on the left shows a + sign. Click on it and describe shortly what happens.
3. In the Design View of a table, right click under the field name column. Click on the Build option and describe what it does.
4. By using FILTER option in the TABLE: Orders, how many orders were shipped on/after 6-May-1998 ? And where were they shipped to (Country only)?
5. In the same table, how many orders were shipped with freight charges between \$50 and \$100?
6. In the same table, using FILTER/SORT, among the orders that were shipped on the 14-Nov-1997, which one is the most expensive (in terms of merchandise costs, NOT freight)? Which one is the cheapest? (Please give OrderID and cost only)
